**Essay Topic: The new mission of Kong Chow Benevolent Association\***

At its inception in 1889 the Kong Chow Benevolent Association was established for a very clear purpose: To assist newly-arrived immigrants in finding accommodations, employment and camaraderie with other brothers and sisters from the same Four-County region of the Pearl River Delta in Guangdong Province, China.

But times have changed.

Instead of seeking wages building railroads, working as domestic help, or (later) toiling in a laundry service or waiting on tables in the local chop suey house, the descendants of those early immigrants, or more recently-arrived immigrants themselves, are much more likely to be college-educated professionals (often practitioners of medicine or law) or venture capitalists, successful investors, top-flight engineers or scientists.

Given the notably reversed nature of social integration and interaction facing today's immigrants to the United States, Kong Chow Benevolent Association seeks to find new meaning, new relevance to thrive in this new environment. In short, it needs a new mission statement.

In a well-worded, coherently developed essay of no more than 500 words, please write a new mission statement for the Association, supporting your suggestion with logic and examples both current and past.

*\*Essays are weighed heavily if there are more applicants than there are awards. Please write your thoughts on a separate page if the space below is insufficient, typed or printed neatly in black or blue ink pen. Recipients will be selected on the basis of (a) grade point average; and (b) content and quality of written essay. Make sure to put your name on the essay.*
